

Community Investment Framework

Our Mission: To improve the health and well-being of our community

Commission Priorities

1. Education & Empowerment

We support programs that educate and empower residents to live healthy lives. These include programs that give people the tools to take ownership of their health, increase their knowledge of health issues and availability of resources, and provide motivation to improve their well-being.

2. Prevention

We support prevention programs, including those that promote health and wellness and that provide early detection and treatment. Of particular interest are programs that increase healthy behaviors, support necessary health screenings, and prevent injuries.

3. Access to Healthcare Services

Too many residents in our area go without needed healthcare services. We support programs that increase access to medical, dental, and behavioral healthcare services. Of particular interest are programs that serve pregnant or parenting mothers and fathers and the uninsured or underinsured community members.

4. Policy and Advocacy

We support programs that employ advocacy and public policy improvements to health systems, communities, and organizations to better meet the health and wellness needs of our residents.
